THE SUMMIT

The OWASP Summit 2017 is a 5-day participant driven event, dedicated to the collaboration of Development and Security professionals, with a strong focus on DevSecOps.

Join us in interactive working sessions to tackle some of the hardest security problems we are facing in 2017 and create actionable solutions.

Contribution from the Belgium Chapter

- • OWASP BE sponsors the "threat modeling working session" at the summit

- • We sponsor $ 4.000 to cover the travel costs of Adam Shostack

- • And it has also a direct upside for our chapter…
